To-morrow we will give farther particulars, preared from the editions of the Picayune, by Lieut. | Gen. Taylor to surrender immediately. Immortal J.C. Bibb. of the U.S. Army.

Dr. Tarner, of the U. S. Army, who arrived at by the gallant Licut Crittenden-Matamoros on the 9th inst. from Monterey, brought the glorious intelligence of another brilliant victory over the Mexican army. The scene of action was at Buena Vists, about 6 miles West of Saltillo.

The fighting commenced on the 22d February and ended on the 23d. Santa Anna retired to Agua Nueva, a distance of 10 miles, leaving 4,000 killed and wounded upon the field. The loss on our part was 700 killed and wounded. Santa Anna's forces three companies under command of Col. Giddings amounted to at least 15,000 men, that of Gen. was sent to his aid, and the whole party are said to

When the contents of the same paper mulgated first, there was such horror commingled with the recital that one would have supposed that with the recital that one would have supposed that When the contents of the said paper were pro-Mecadonians, carrying triumph and devastation wherever his army appeared, and there was such an air of grandeur thrown around the stratagems of the dignified and conquering Mexican chieftain, that we were carried back to the golden days of

he has not been entirely defeated, he left on the field about 2,000 dead. Both armies have been cut to pieces, but the trophies of war will give you an idea on which side has been the state of the public mind, which having little to work upon, was inventing and conflicting with it-self in every possible way, the accounts published in our paper of the 6th inst are partly confirmed.

We have struggled with hunger and thirst, during forty kours, and if we can provide ourselves with provisions, we will go again and charge the enemy. The soldiers under my command have done their duty and covered the honor of the Mexican nation with glory. The enemy has seen that neither the advantage of his position, nor the broken nature of the ground, nor the rigor of the season, for it has been raining during the action,) could prevent the terrible charge with the bayonet, which left him terrified.

The Transic Control of Santa Anna. In that number we gave the substance of a dispatch from Santa Anna, declaring his intention to give Gen. Taylor battle on the Tist uit. Gen. Taylor was then represented as being at a place called Agua Nueva (New Water) fortifying himself,—we are now inclined to think this was intended by the General as a ruse to decoy Santa Anna into a regu-lar standing engagement, knowing that the point he had selected was one that Santa Anna must pass, being the only good water within a great number of miles which would be sufficient to supply the wants of so large a force as Santa Anna had then under his command, and as we have drawn this week his command; and as we have drawn this much from the probabilities attending this bloody enconn er, we will draw farther and suppose it probable that on arriving here the Mexican army, which had been fully prepared for the strife by starvation and thirst, called all their energies into requisition, and hence the slaughter reported to have taken place on both sides—the one a struggle for food and drink; on the other, a natural display of courage and maneuvers, attempting to outflank and terrify Old

Rough and Ready. On that day the battle was to one, and standing, as it were, upon his own ground, possessing superior advantages in the way of interesting friends in all parts of the country, together with correct knowledge of its geograp ical and geological character, and many other facts calculated to favor him, is reduced to the necessity of inventing subterfuges to account for an unpar

donable want of success, amounting, in a word, to defeat. This is humiliating, indeed.

The article is devoted to the praise of Gen. Santa The article is devoted to the praise of Gen. Santa Anna, and forms the introduction to the official dispatch from him, and to several letters from officers of his army. We have already given a translation of this dispatch. It was addressed to Raman Adame, Governor of the State of San Luis Potosi.

The Editor then remarks that other letters have been received by private citizens of San Luis, written from Agua Nueva on the 24th Feb. These letters say that two Commissioners had arrived there from Gen. Taylor, demanding their surrender; that Santa Anna exhibited to them the state of his army, showing them the enthusiasm and decision that Santa Anna exhibited to them the state of his army, showing them the enthusiasm and decision that prevailed among the troops, who had fallen back to that point only for the purpose of obtaining food, and finally gave them as his definite reply, that unless they surrendered at discretion, he would renew the battle the following day and continue it until he had completed their destruction.

Then follows an address of the Governor of San Luis to his countrymen, dated the 27th, recapitulating Santa Anna's dispatch and congratulating the people upon the victory, of which, in the most emphatic language, all the glory is attributed to Santa Anna.

The same letter says that Santa Anna had a

A postscript to the letter says: "After closing my letter, the General in-Chief, convinced doubtless that the army would disband unless it obtained food and water, ordered it to move to Agua Nucva, where there are cattle and water—water before ery thing."
The postscript adds that they have lost about

Our city was thrown into a great state of excitemen yesterday by the receipt of news from San Luis Potosi, giving the particulars of a bloody engagement between the American forces under Gen. Taylor, and those of the Mexicans under Gen. Santa Anna, at a point called Buena Vista.

Another letter gives the following additional names of officers: Pepe Oroscz, Pepe Bonilla, the major of the regiment of Morelia, Assons, and Luyando, Major of Hussars. Besides, Gen. Lombar-

Fighting commenced on the 22d of February, and ended on the 23d, when Gen. Santa Anna re-tired with the less of 1000 killed and wounded.— Loss on our part 700 killed and wounded. The scene of the action was Buena Vista—a hacienda four miles West of Saltillo. Santa Anna's Adjutant General, with many other officers and men are prisoners.

The express which brought the news was sent by Paymaster Butler from Monterey, and was nine days in getting through to Camargo. Gen. Tay-lor's official dispatch has probably been intercepted. Col. Morgan's command had reached Monterey in safety, having been reinforced at Cerralvo by command from Monterey.

The streets of our city have this day been innu-dated with rumors about Vera Cruz. It has been said that the city had surrendered without firing a gun—and that the Castle of San Juan de Ulua had been blown up. Neither of these rumors is correct, as far at least as the Government is now advised. The facts are these: A letter, which we have seen, has been received this day from Harana which states that on the reviews are

A letter, which we have seen, has been received this day from Harvana, which states that on the previous evening the steamer Mississippi had arrived from Vera Cruz, having teken the place of the unfortunate Tweed, which has been recently shipwrecked on the coast—From the reliable accounts brought by her, it would appear that Santa Anna had ordered the troops to be withdrawn from the city, leaving the Castle to defend itself. According to an order issued by Santa Anna, it appears that his troops are to make a stand at the Puerte Nacional—the National Bridge—about 23 miles from Vera Cruz. This is a strong military position.

The writer of this letter has sent, also, late Havana papers to Washington. We hope to have the opportunity of laying some translations before our readers, if they should contain anything worthy of particular notice.

The papers from the Capital seem to confirm the be-lief that the mission of Schor Atocha was to prepose an arrangement by which the line of the 26th parallel should be the boundary between Mexico and the United Island, for which \$20,000,000 would be paid to Mexico, and, moreover, the United States would take upon themselves to satisfy the claims of their citizens, amounting to about \$11,000,000.

By the arrival of the schooner John Bell, Capt. Noyes yesterday afternoon, we received the Matamoros Flag of the 6th inst. from which we gather the following

on the evening of the 3d inst. a well-dressed Mexican, wearing a sabre, was arrested by the picket guard, outside the town. In discharge of his duty the guard disarmed him, and was marching him into town, when the Mexican, trusting to the speed of his horse, attempted to escape, but the unerring ride stopped his career, killing him instantly. On investigation, enough was elicited to lead to the belief that he was a man of some wealth, belonging to a rancho a few miles from Matamoros—as the dismal tolling of the church belis plainly told.

The Americans residing in Mier evecuated the town on the approach of the Mexicans. Previous to leaving, they made a surrender of their goods to the Alcalde, and took a receipt therefor.

Col Curtis was determined to make a strong defence at Camargo. To make an opening for the play of bis artillery on the approaches to the town, he ordered two houses to be pulled down. The order was executed by setting fire to them. A strong wind arising, the fiames were communicated to other buildings, and a great many consumed, principally \*sackais\*, of no great value.

Dr. Townsend's Sarsparilla is sovereign and speedy cure for incipient consumption, barrenness, leucorrhosa, or whites, obstructed or difficult mensuration, incontinuence of urines, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent causes, or produced by irregularity

the nervelesaness of the female frame, which is the great cause of barreness.

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cares performed, but we can assure, to exhibit certificates of cares performed, but we can assure the afficient but hundreds of cases have been reported to us. Several cases, where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with healthy offspring.

Dr. Townseno: My wife being gressity distressed by weakness and general destitity, and suffering continually by pain and a sensation of bearing down, failing of the womb, and with other difficulties, and having known cases where your medicine has effected great cares, and also hearing if recommended for such cases as I have described, I obtained a bottle of Extract of Sarsaparilla, and followed her complaints and restored her to health. Being grateful for the benefits she received, I as short time it removed her complaints and recommending it to the public.

M. D. MOORE, our of Grand and Lydius st. Albany, Aug. 17, 1844.

Dr. Townsend.—To all whom this may concern: This is to excitly, that my wife used one bottle of your Sarsaparilla previous to her confinement, under the most alarming and delicate circumstances, being troubled with the dropsy, swelling of the feet, nervous affections, and very much debilitated. With my persuasion, and the recommendation of those who had used it, she was induced to try it, with little or no faith; and suffice it to say, the medicine had the happy and dearted effect, not only in the hours of confinement, but after the expiration of one week of its use, the drops and nervous affection gave way to an asionishing degree, and her health is now better than it had been for a long time previous.

If this will be of any service to you, or any one who doubts the success of the medicine, you are entirely well-come to it. I subscribe myself your most obsedient and SMITH & BISLEY, 142 Chi
